KEY COMPETENCES

- Logical thinking
- Systematic problem solving
- Ability to cooperate

EDUCATION

Degree of Master of Science in Computer Science, 300hp 2018 - 2023

Luleå University of Technology, Luleå

I am currently taking my masters in computer science. I graduate the year 2023. Examples of some courses I've taken are "Linear algebra and differential calculus" and "Algorithms and data structures". At current time I have passed 18 out of 19 courses I've read.

Introduction to Pedagogy, 30hp 2017-2018

Gävle Högskola, Gävle

A compound course on pedagogy, which contained three courses. I learned a lot about the ways we learn, and how to present new knowledge to someone in a way that benefits their learning.

EXTRACURRICULAR ACTIVITIES

Developer Student Club Lead 2020 - present

Google Developer Student Club, Luleå University of Technology

I am currently the lead developer of Luleå University of Technology's Google Student Developer Club. In this club I am arranging workshops and projects for a small team I am the head of.

Developer Student Club Assistant 2019 - 2020

Google Developer Student Club, Luleå University of Technology

I was in a development team via Google Student Developer Club, a club at Luleå University of Technology.

WORK EXPERIENCE

Lab Supervisor 2019, 2020

Luleå University of Technology, several times a week

I worked as lab supervisor for first-year students in the courses D0015E-HT19, D0015E-HT20 and D0010E-VT20. I took responsibility for grading laborations and tasks the students were given.

Teaching Assistant 2017 - 2018

Hudiksvall municipality, 60%

I worked two semesters as a teaching assistant at Skolbyn, Hudiksvall. I primarily worked with the fourth grade. I got to hold lessons in a variety of subjects, and also got the opportunity to educate both students and teachers in programming.

Caretaker Summer 2017

Hudiksvall municipality, full time

I worked at Tunbacka Retirement Home, as caretaker for the residents. There I did everything from change diapers and shower the residents to distribute medicine and cooking food.
