KEY COMPETENCES

- Logical thinking
- Systematic problem solving
- Ability to cooperate

EDUCATION

Degree of Master of Science in Computer Science, 300hp 2018 - 2023

Luleå University of Technology, Luleå

I am currently taking my masters in computer science. I graduate the year 2023. Examples of some courses I've taken are "Linear algebra and differential calculus" and "Algorithms and data structures". At current time I have passed 9 out of 10 courses I've read.

Introduction to Pedagogy, 30hp 2017-2018

Gävle Högskola, Gävle

A compound course on pedagogy, which contained three courses. I learned a lot about the ways we learn, and how to present new knowledge to someone in a way that benefits their learning.

Natural Science Program 2014-2017

Bromangymnasiet, Hudiksvall

I learned how to write rapports and how to present data, and my interest for mathematics and programming grew. Some courses I enjoyed and found fruitful were "Physics 2" and "Mathematics 5".

EXTRACURRICULAR ACTIVITIES

Developer Student Club Assistant 2019 - nutid

Google Student Developer Club, Luleå University of Technology

I am currently in a development team via Google Student Developer Club, a club at Luleå University of Technology. At the moment we are developing an app designed to help navigating on campus, and the app implements Alternate Reality to show the way to different rooms in real-time.

Lab Supervisor 2019

Luleå University of Technology, several times a week

I worked as lab supervisor for first-year students in the course D0015E, Computer Engineering and Engineering. I took responsibility for grading laborations and tasks the students were given.

Contact Person 2017 - 2018

Hudiksvall municipality, once a week

I met a person with the diagnosis autism once a week for a year, where I helped him socialize. We often met for coffee or went to the cinema.

WORK EXPERIENCE

Teacher 2017 - 2018

Hudiksvall municipality, 60%

I worked two semesters as a teacher at Skolbyn, Hudiksvall. I primarily worked with the fourth grade. I got to hold lessons in a variety of subjects, and also got the opportunity to educate both students and teachers in programming.

Caretaker Summer 2017

Hudiksvall municipality, full time

I worked at Tunbacka Retirement Home, as caretaker for the residents. There I did everything from change diapers and shower the residents to distribute medicine and cooking food.

Assistant 2014 - 2016

SGA Estates, full time

I worked at SGA Estates during the summers of 2014 - 2016. There I helped with operation and maintenace, with tasks such as installing a system to water Tele2 Arena during the winters.

COMPETENCES

Språk	Swedish (native tongue)
	English (fluent)
Hardware	Arduino, MIPS-32 processor
Progr. lang.	C++, Python 3, Java, HTML, CSS, LUA, Assembly
